“ I'm sad to hear of the passing of Bob, a good person and friend. Our last meeting was in the time frame of 1979 - 1983 and don't remember the occasion but it was great going over our times from McKinley to Col Hi. Please accept my condolences to Linda & Bobby.

A note to Linda: It's good to know where you are as the last time I talked to Odie (sic) I didn't remember where she said you were. Again I'm sad to hear about Bob.

“ My deepest sympathy to Linda and members of Bob's family. I know he was very proud of his son, Bobby. Being in his high school class, it seems too early for him to pass from this life. He was always so full of life when I've been around him and had such a great sense of humor. He also seemed to really care for others. I remember he sent me a condolence card when my mother passed away, and I hadn't seen for quite a while. I remember when some of my high school girlfriends got together for a reunion after our 50th high school reunion, Bob's name came up and one of the girls said "I always did like Bobby. A lot of us dated him in high school at one time or another." And we all had a chuckle out of that. So lots of memories from high school and at our reunions.

With deepest sympathy,

“ I send condolences to Linda and to others in Bob's family circle. Here's hoping that all of you will find comfort in good memories and in the love and care of family and friends. Bob was my neighbor and my classmate who provided us with lots of Friday night thrills on the field and on the court. His bright light will be missed.

“ I met Bob in 1993. I was working for Holly Surgar and Bob was running a site for Zemi corporation in LA.. Zemi bought surgar from me and he ended talking me into going to work with him. This was the start of our 27 year friendship. This was also an example of Bob's persuasive skills. Zemi fabricated vending machine that served a slush drink that was similar to a frozen Gatorade drink. On occasion the customer's vending machines would leak and the contents would spil onto the floor and it would eat the customers cement floors. So I went from a safe job to one that taught me how to do some fast talking. That talking skill is one that I use today. I will miss my friend alot and will continue to value the experiences that we shared over the last 27 years. Stan Traxler
