“ *Sorry, Dottie and Melanie, to just now hear of Bobby's passing. He was a true friend when we were in Gas Testing at Phillips in Odessa. We had many laughs and many serious discussions. He was kind, intelligent, and a good listener -- everything you would want in a friend and I am very sad he is gone, but now take heart that he is in a better place.*

I think, I post here. I met Bobby, when I moved to Canadian at age 12, and his girlfriend decided she liked me. After that, we played baseball in Canadian, him a Dodger catcher, me a Red Sox catcher. We started riding the first wood skateboards together hitting the sidewalk downhill on his block, and it was a rough ride, we mastered together. We went on a couple of walks with friends out toward the Caprocks to see Audrey, but we didn't make it, and turned back, and all around town one day. very likable guy, liked to laugh. good friend. peace S/B
