“ I loved Brian's soul and his sass! Anyone who knew him, knew he was a force to be reckoned with. Myself, and many other nurses, are better nurses because of him. I will miss him so!!

“ He took really good care of Gary when he fell out of his tree stand several years ago. He's so funny and at the time we needed a good laugh. RIP you will be missed by your JP family. 💜

“ We will ALL miss Brian here at his home away from home, Jane Phillips. I had the pleasure to work with Brian for 8 years. One of my favorite memories was when I was about 8 months pregnant with my daughter and we were working 5T. shortly into the shift I started having what I thought was Braxton Hicks. Brian kept telling me it wasn't and that I was going to "spit that kid out in the hallway"! Finally about 3 in the morning he put both hands on the desk and said, "go to OB right NOW. I can physically see your belly contracting" I finally did and sure enough I was in full blown labor! He always made sure to tell that story every time we saw each other!! It was an honor to know him and work with him. I will always miss him.
