“ *Donna was so kind and was always thinking of others. My wife passed away 3 weeks ago and Donna had such a nice card and note that she and Michael sent to me. She will be missed.*

“ *I never knew her as "Jeanie" but I do remember being one of many boys in Madison Junior High School who had a long running crush on Donna Jean. I did manage to get up the nerve one time to ask her on a date and while I don't recall where we went or what we did, I definitely remember how much fun it was to simply be around her. But even as fond as my early memories of Donna Jean may be, they pale in comparison to the joy that I could see and feel when she and Mike finally got together. That joy was surely multiplied by all the time and the many experiences shared by Mike and Donna. I pray that experience of joy will most frequently surface in memory as a feeling of quiet comfort and peace, diminishing in time the pain and trauma of loss.*
