“ Some of my favorite memories are spending holidays with Aunt June and my Nana, her sister Colleen. It's said you never forget the way someone makes you feel, and Aunt June made you feel treasured and special. I never left a visit without a hug and happy memories of time with her.

“ June was my mother's sister and my most precious aunt. She was always polite, courteous, good natured and happy. She had her own way of teasing you and making you feel good. She never forgot special occasions and you could always expect a telephone call on your birthday. She raised two fine young men who will always have special memories of their mother. She will be missed by all who knew her and saw her smile. The world needs more people like her.

I started my teaching career with June and she was the best mentor I could have ever had. She always treated me with so much respect and valued my opinions or ideas even my first year of teaching. She was not only a colleague but was a mom and the best friend I could have ever asked for. She made you want to come to work everyday and made it fun. At Kane she was remembered as the best popcorn maker ever and always made sure we had a good supply at lunch and break times. She cared deeply about all of her students and assisted them with anything she could help them with. Her family was her number one responsibility and she loved her boys deeply and bragged about them and her grandchildren all the time. She had the prettiest flowers and kept her house immaculate. She loved playing Bunco with her teacher friends and love to hear their stories. I am going to miss her dearly but will always cherish our memories!
