“*But I remember the most about Gavin is yes he was always happy I always had a smile on his face but he always liked to annoy me with these math questions that he knew I did not know the answer to or just rare facts that you wouldn't think of every day that he knew the boy was very smart and I am very very sad there's no telling what he could have achieved in his lifetime he was very smart kid and I can truly say that I loved him*
