“ *There is no way to put into words all the love, gratitude and respect I have for Harold Lee, he forgot more about the oilfield than most of us guys will ever know. He told me "If you're willing to learn and listen I'll teach you everything I know, and what I don't know I'll make up as I go". My day's will never be the same without him waiting for me at the tank battery every morning then setting under a shade tree talking for hours at a time, but I find comfort knowing him and the "Ol Lady" are finally together again.*
