“ *Mr. Shawver (you are right Tina) made a real difference in our lives. We wouldn't be where we are today if he wouldn't have given us a chance. And along the way, we became friends! His professionalism, insight and courage were just what was needed at that time for Shawnee Mission Medical Center. Thank you Mr. Shawver for your dedication to your family, your faith, and your friends. We will never forget you and Lila.*

“ *Mr. Shawver (still feel like I need to call him "Mr. Shawver instead of Russell) was the CEO of Shawnee Mission Medical Center when I started working in administration in 1974. He made brilliant decisions, was always kind and had a smile for everyone. He was responsible for the first large growth spurt of the hospital. He was a good Christian man!*

“ I was very saddened to learn that Russell had passed on. He was my first professional mentor and someone I greatly admired. As someone with so much influence on me in my early career, I have frequently used stories of Russell interactions. My daughter is a year younger than she would have been if he hadn't sent me to Minnesota on an assignment for a few months. I may have had a much different career if he hadn't seen some potential right out of grad school, later telling me that he had checked me out "and my family background." My favorite was his frequent quote at Board meetings of Harley Rice, one of his mentors, who said "my guardian angel goes home at 9 so we have to wrap up this meeting."

Russ was successful, influential and a committed Christian. I appreciate the influence that he had on my life!
