“ Susan and family, I have many fond memories of Jim; he was an excellent technical programmer and later moved into the elite systems group where he was the father of TSO for the company. We once spent 2 weeks together near Washington DC doing benchmark testing for the latest IBM hardware and operating system; we did take time to watch the Baltimore Orioles. We played basketball at noon and went to several local tournaments--Jim liked to shoot from the baseline. I was surprised to hear of his passing and I offer you my sincere condolences. Rest in peace, Jimmy D.

“ I have so many memories of him throughout my life. I feel like this just isn't enough. I remember getting help with my homework, going to the lake to swim, and him showing me how to ride his motorcycle. I miss him so much, this doesn't seem real.

“ I have a lot of good memories of my brother. He helped me a lot when I was in college and when Kathy & I moved to Bartlesville. One special thing he did was give me his '65 Mustang when he bought a new '67 Mercury Cougar. We both had cool vehicles then.
