KC

“ Kathy and I got to spend time together last year. We would go on a "coke date" at Sonic. We ordered a drink, laughed and talked about old times. We reminisced about dances at the YTeens, and the dances she had at her house. We listened to some of the old music. Whenever she found music from American Bandstand she would send a video to me. She remembered getting permission for me to drive her parent's car to the Youth Canteen before she had her driver's license. (which I don't recall) She gave me a white cat that we named Puppy of which I loved very much. She talked about her horses and how much she loved riding. And about her daughter, son and grandchildren and how special they were. She told me how she met her husband, how they loved to dance when they first met. We spoke by phone Nov. 19th before she became ill. We were looking forward to getting together next summer. How she loved to dance and ride horses. I like to think of her riding her favorite horse in a pasture of daisies going fast as the wind. I will never forget my friend that made me laugh, confronted me with hard questions, and was there for me when I needed her. You are forever remembered and never forgotten dear friend.
