

Malcom Irie Majors

March 30, 2003 - February 17, 2024

Malcom Irie Majors, age 20, died February 17, 2024. Malcom was born March 30, 2003, to Sterling Scott Majors and Adriann Nicole Ogans.

Malcom was a bright spirit and loved making others laugh. He was diagnosed with autism early in life and started Paths to Independence as a student. He had many accomplishments including Graduating from P.T.I., Graduating from Precision Machine Operations and Automotive Collision Repair programs. He was also the proud owner of “Malcom’s Car Detailing.” By the time Malcom graduated he was helping with students, activities, even on pay roll to run the recycle program in the back.

He was later diagnosed with epilepsy which prevented him from driving a car legally and safely, so Malcom made short work of his diagnoses and would never let them get him down, he rode his bike to and from school to get a degree in Auto Body. With his love for Auto Body and Car detailing, he dreamed of owning a business where you could get a repair under the hood, for a dented hood, or even just a dirty hood, all hoods welcome!

Even with these disabilities, Malcom was a rockstar! He was always seen with a smile on his face, a hug to give, and a story to tell! He loved Riding Bikes, working on cars, cooking experimental succulent meals, making friends, writing stories, drawing, playing video games, and above all helping others.

Malcom was the Winner of the Moose Spirit Award and Dancing with the PTI Stars. He also bragged about his 3rd place finish in the Gourmet Grilled Cheese Cook off, and his parents say he would win the BEST son 2024 World Champion Award. Malcom will be missed by so many, if you met Malcom, he would have easily touched your life.

He is Preceded in death by his MeanMa Geneva and Grandma Too, his Favorite Uncle Chris Sr. his Great Aunt Mozel and Great Great Aunt Nelly. Malcom's memory lives on with his mother and father, Adriann and Sterling. His Sister Amara Angelique, His brothers Jeremiah, and Remington; His PopPop Zan; Great Aunt Mae; and Great Uncle Doug, as well as hundreds of cousins, and hundreds of friends.

“ I met Malcom while working at PTI. As many others have already stated, he had a way of making you smile. He often teased me about driving a Toyota Prius. He would laugh and laugh when he brought up the subject. Of course, I loved it! He was also very thoughtful of other students in his homeroom that needed extra care or attention. Malcom will not be forgotten! He made an impact on my life and so many others. Karla Price

“ Malcom always made sure you were noticed. He would put my name in a sentence every time we had lunch together when I worked at PTI or he just saw me in the hall. Even when I no longer worked at PTI he made the effort to stay in contact. He gave pure love and real love to everyone. I know for a fact he is in heaven riding the biggest bike and watching down in all of us.

“ *Malcom was a rockstar. He's the funniest and friendliest student I've ever had. We used to work on the PTI vehicles together. Once he identified your vehicle, he would see you driving around town and would immediately start waving. He never met a stranger! He was the embodiment of love and happiness. He will be missed by so many. Condolences to his friends and Family.*

“ Malcom and I started PTI at the same time, a fact that he loved to talk about through the years. When I left PTI, the year he graduated, I was extremely happy that we continued to have our student/teacher relationship. He would come by my new office to visit, and he also checked in on my family and I often. One of my favorite things Malcom would do, was change my clock when there was a time change, and replace the battery in the clock when it needed it. I am forgetful, and instead of just changing the clock, I would let it go, or get busy doing something else and not track down a battery. He recognized this very early on, and asked one day if he could change it. Thus started many years of Malcom being my clock guy. When I started my new job, my habit of having a clock on my wall that didn't show the right time did not change. When my daughter would look at my clock in my office I would laugh and tell her, I don't have Malcom to fix my clock anymore. I will forever hear his laugh when I told him that, and his voice saying “Miiiiiccccaahhhh” I loved Malcom so much, and will forever be proud of person he was. Thank you for sharing him with me for all these years and for allowing me to be apart of his life at PTI.
