“ *It's been almost two years since you left this earth. I hope you and Bev are having a good time. Play a hand of cards for me. Still missing you.*

“ *Patsy was one of the first little girls I met when I moved to Culver in 1956 and she was such a pretty little blonde . I think I was jealous. Daddy took us girls to the gravel pit to play with her while he bought marl for our garden he was starting. I loved her wit on Facebook and she has been thru some rough times but always saw humor in life. My love to her family*

“ Patsy, I am so sad that you have left us. Maybe now you will find relief from pain. To me you will always be that fun living high school girl, full of interesting stories and so very creative. I felt honored the year you chose me to be your Sunshine Lady and gifted me a necklace that I wore constantly. I still have that necklace and just today got it out and it brought back fond memories of you. My sympathy to your family. I know they are devastated at losing you. Hugs to Jodie and Raymond. You will be greatly missed. Barbara Winters.
