“ *We may have only known each other for 3 years but I will never forget all our talks, all our laughs, all our tears we shared. Although, we only knew each other through Xbox and our shared love of rocket league, you were my friend, you were my Stryker, my shooter, my teammate, my friend, you were family. Fly high my friend, the misfits will never be the same. So much love and hugs .*

“ I’m always going to think about our talks, they were always deep. You were like a brother to me, I hated all of your favorite football teams OSU & the Packers 😬 we would BIG trash talk and laugh about it later. Never thought for any reason in the world I’d wear an OSU shirt... I’d wear one every day to just have one last talk with you. You were my keeper, always had my back. I wish I could have had yours. I let you down, I hated that you would get so down on yourself sometimes, because what we all saw was a great guy, always making everyone laugh. Always making sure no one felt left out or sad. No matter how bad you were hurting you always put others first to try and make this world a little kinder. You are going to be very missed, my kids will know about you, and what it means to really have a true friend. We hadn’t talked much recently and I’d give anything if I could go back and change that. It’s hard to understand gods plan when you’ve been so hurt, but I think God had bigger plans for you. My kids will know you, how good of a man you were. I’m going to miss you SO much, shooter! We all will be thinking of you as you watch over us. I love you, brother I might just wear that shirt sometimes. Fly high Pat, rest in paradise.

“ I will forever cherish talking GB Packers football with you! You were the only one that I could talk about each player with and have a fellow fan here to really cheer them on. Rest Easy, Pat... you will be missed immensely and this upcoming season won't be the same without you. 💔

“ Unreal. I've always thought you were so cool and nice. When we worked at Albertsons I was actually jealous of how cool you were. It was always a good time talking with you and you are incredibly missed. Love you dude. BMA for life.

“ I love you so much Patrick. I enjoyed every second of every day even during the darkest points. I loved listening to Spotify as you played rocket league. I loved cooking with you and being silly. I loved play fighting with you and quoting stupid phrases from the stupid shows we watched. I don't know if I can watch Demon Slayer anymore and I had to turn Bluey off cause it hurt to much. Thank you for helping me with Rhylee. Thank you for taking care of things for me when I couldn't handle it myself. You are one of a kind.
