“ *To the family of Phyllis, I would just like to say that as a friend of hers , whenever I would meet with Phyllis, she would inquire about me, then tell me about her family. She always talked about the grandchildren. All of you were her life, and she loved you all very much.*

A lot of patient's at the hospital were recipients of her expert nursing skills. You can be very proud to have had such a beautiful person for your mother!

God bless each of you as you go through this difficult time.

You are in my thoughts and prayers, Judy and Fred Pecher
