

Dr. Stanley Paul DeFehr MD

April 8, 1951 - May 24, 2018

Dr. Stanley Paul DeFehr MD, age 67, passed away at his home surrounded by family and friends on May 24, 2018. He was born April 8, 1951 in Weatherford, Oklahoma, the second son to Paul and Elsie DeFehr. Stan was raised in Weatherford with his three brothers, Ken, Jody and Jeff, who have remained life-long friends. His family was embedded in the community as owners of the local John Deere implement. This legacy continues today, as DeFehr Implement has expanded throughout Oklahoma and Texas as part of the Western Equipment family of dealerships.

Stan graduated as salutatorian at Weatherford High School in 1969 and enrolled at the University of Oklahoma, where he was a President's Scholar. After initially pursuing a degree in engineering to further his dream to be an astronaut, Stan decided instead to enroll in medical school after acing his MCAT his junior year. He graduated from the University of Oklahoma College of Medicine in 1976 with distinction, achieving membership in the Alpha Omega Alpha honor society. Stan moved to Bartlesville in 1980, opening his medical practice in internal medicine with an interest in cardiology. He returned to the University of Oklahoma in 1983-84 to complete a second year of cardiology fellowship and began focusing solely on cardiology in the mid-1980s.

Stan's original practice in Bartlesville was with Doctors Daniel Houtman,

Thomas Riggs, and James Young. He later formed BlueStem Cardiology with William Patrick Tinker and Gary Dykstra. In recent years, his practice has expanded to include several additional partners and advanced practice providers, including cardiologists Anderson Mehrle, Andrew Kurkklinisky, Katy Farguson, and Chris May. He has served tens of thousands of patients in clinics in Bartlesville, Nowata, and surrounding areas over the past 38 years and has enjoyed being on staff at Jane Phillips Medical Center.

Stan was recognized during the 1997 Bartlesville Centennial Celebration as the outstanding physician in the medical community. In addition to his work with patients, he served as Chairman of the Board and Chief of Staff at Jane Phillips and Governor of the Oklahoma Chapter of the American College of Cardiology. Stan was active in promoting health care policy in Oklahoma and Washington DC, advocating on behalf of physicians and their patients.

During medical school in 1974, Stan married Joyce Johnson. They were married for twenty-two years and had two children, Grant and Mary. Stan later married Cynthia Burkhart in 2003 and gained three more sons, Justin, Lee, and Ben. Stan and Cynthia were happily married for almost fifteen years.

Stan had a passion for his eight grandchildren, attending performances and games while having sleepovers and campouts at his property outside of town. He oversaw the construction of a treehouse along the creek and had recently installed a pool for the summer. His grandchildren enjoyed riding the John Deer Gator and playing sports on the front lawn. He delighted in hosting his nieces and nephews for summer vacations and holidays.

Stan imparted a passion for travel, entertainment, education, and the development of intellectual curiosity. He took family trips to Boston, Washington DC, New York City, New Orleans, Hilton Head, Disney, Hawaii, France, Italy, and Spain. He was an OU season ticket holder for over forty

years and never missed an opportunity to attend the Red River Rivalry or a major bowl game. Stan also looked forward to the events for OU President's Associates and listening to the speakers at the Teach In each spring on campus in Norman.

In his youth, Stan enjoyed playing baseball in vacant neighborhood lots, where he played alongside his brothers and friends and developed a love for the game. He was a varsity athlete for the Weatherford Eagles in baseball, football, and basketball. His passion for baseball continued into adulthood, where he participated in numerous fantasy camps for the Dodgers, Red Sox, and Reds. Stan was named Camp MVP for the Dodgers in 2008 and also was a two-time recipient of the Don Drysdale award in 2008 and 2014 as the outstanding pitcher at the camp. He also traveled to Cuba on two occasions as part of a baseball outreach program, competing against local teams comprised of a combination of former amateur and professional players. Stan was thankful for sharing these experiences with his family, attending many of the camps alongside his children Mary, Ben, and Grant and his son-in-law Jon. Stan continued his baseball development in the off-season, taking weekly pitching and hitting lessons and throwing summer batting practice on occasion with the high school team.

Stan appreciated the arts and music. A member of the band in high school, he played the tuba, saxophone, base, and piano. He was known for singing in the office and even during procedures in the cath lab. He and Cynthia took ballroom dancing lessons in Bartlesville and at dance camps in New England, perfecting their steps in foxtrot, waltz, rumba, cha-cha-cha, tango and swing.

Stan accepted Christ at a young age and has been an active member of the Christian community in Bartlesville for over thirty-five years, first as a member at First Baptist Church and later as a member of East Cross United Methodist

Church. Stan served as a physician on several medical missionary trips to Nicaragua with First Baptist, caring for thousands of patients while spreading the gospel. He was also involved as a past board member of K-Life Ministries.

Stan was passionate about serving his patients and the broader Bartlesville community. He was compassionate and caring, a servant leader in the model of Christ. He would take the extra time to know his patients personally as well and professionally, thankful for the gifts that God provided him and his ability to make an impact on those around him. He was appreciative of having the opportunity to serve on numerous civic boards and committees.

Stan embraced a philosophy of life based on finding happiness and contentment in personal interaction and combined experience. He valued quality time together over material possessions. He was independent in thought but selfless in action, focused on experiencing joy in helping others and culturing relationships.

The family wants to express their appreciation to the friendship and care offered by the medical staffs at MD Anderson and Jane Phillips over the past several years as Stan battled multiple myeloma. In particular, they are thankful for the advice and care of Doctors Wong, Manus, Myers, Mehrle, Matheson, and May, Jane Phillips's oncology department, the nursing staff of the Jane Phillips CCU, and BlueStem Cardiology. They are especially thankful for the long-time friendship and care of his Nurse Practitioner, Mollie Bechtelheimer.

Stan was preceded in death by his parents, Paul and Elsie DeFehr. He is survived by his wife Cynthia DeFehr, his children Grant DeFehr and wife Summer, Mary Eve and husband Jon, Justin Marshall and wife Laurie, Lee Brammer and wife Amanda, Ben Brammer and wife Morgan, and his three brothers, Ken and wife Sally, Jody and wife Ellen, and Jeff and wife Melanie. Stan's legacy lives on in eight grandchildren, Brooks, Ryan, Luke, Burke,

Katie Marie, Presley, Hollis, and Asa Paul, and numerous nieces, nephews, and extended family, including his BlueStem Cardiology and Jane Phillips cath lab family.

Funeral services for Stan will be held at First Baptist Church in Bartlesville on Wednesday, May 30, at 2pm.

Anyone wishing to donate in the memory of Stan, please send donations to the Bartlesville Public Schools at 1100 S. Jennings, Bartlesville, Oklahoma 74003 or BlueStem Medical Foundation at 3500 Frank Phillips Blvd., Bartlesville, Oklahoma 74006.

“ I am grateful for the life of Dr. DeFehr and saddened at our loss. He saved my father's life in the early 90's and gave him 10 more years to enjoy with his family. In those days Stan looked very young. My father, who was unconscious and code blue at the time, rallied under Dr. DeFehr's emergency treatment. Looking up at him my dad said, "You look like a Boy Scout working on a merit badge." They became instant, lifelong friends.

He would years later save my life and ultimately send me to Tulsa for open heart surgery. I have enjoyed additional years of life as a result of his kind and expert treatment.

I look forward to seeing Stan someday sitting at the feet of Jesus still passionate about learning.

Rest dear brother.

“ We moved from Weatherford to Bartlesville in 2006. Of course – many places and people would become important in our lives.

Soon finding just the right cardiologist was weighing heavily on my mind. Then somewhere I heard his name – “Stan Defehr.” Oh yes, he’s the one, the “cousin,” Elsie’s son, Jeff’s older brother. Now the decision was made. This was the right Doctor for me.

As we spoke of heart and blood pressure, we also shared memories of “your Grandpa, my Grandma,” The John Deere name and family, people and places in the Weatherford area. He made Doctor’s visits less intimidating.

I will remember him as caring, get-involved, Doctor Stan. Much love by so many.

“ Dr. Defehr was more than a doc. He was willing to be a friend to anyone he met. I am proof. From the first time i met him, he was open and honest and willing to share so that I would share. Stan, I wish I could have hugged u one more time. Hopefully, I will get another chance...

“ *I was impressed with Stan when I heard about his Bible book selling with the Southwestern Company. I became a Beta only to find Stan and several other Betas were of the Southwestern Company Fraternity also. I remember Stan's beautiful smile and encouraging words to every person he ever encountered (or so it seemed to me). I didn't hear much of Stan's life after college, but I for one was really impressed with his burning desire to be the best that he could be at anything he undertook. I hope his children and grandchildren will take that to heart. My condolences to you, his family. I'm sure there is a large hole in your heart, but the smile on that face tells me it Glows with the comfort that he belongs to Christ.*

“ We will be forever grateful for the care Stan took of Aaron during his heart attack and afterwards. His positivity and kindness comforted us so much and a very challenging time in our lives. His courage and determination to focus on others despite his ongoing battle with cancer was a testament of his character and strength. We are so grateful for our association with him and your family. You are in are thoughts and prayers, and we know we will all have the blessing of seeing Stan and his kind smile again someday.

“ It will be hard to replace him in my life as the "Good Doctor". I have said many times that if it weren't for him I wouldn't be here today. There was never a time when I needed to see him that he wasn't available. He was always smiling & so kind. I know he must have been a wonderful husband, father & grandfather. I can't tell you enough Dr. Stan, you were the best.

Ollie Murphy - May 27, 2018 at 11:04 AM

PT

“ Stan and his brothers grew up around the corner from me. It is true... they would have a baseball game going after school in their backyard when I walked by on the way home. He came to my rescue in second grade when a classmate was bullying me. He practiced piano faithfully and I loved hearing him play along with his tuba. We went on band trips together all over the state unless he was playing football. He loaned me his Letterman's jacket for homecoming as for some reason we twirlers were expected to borrow one... That was his way... To always be generous. He was unbelievably kind. He blew me away with how amazingly smart he was. He often checked on my dad when in Weatherford. He was the finest of classmates. He was the finest of boys when we were young. He became the finest of men. Enjoy Heaven my friend. I am sure God has a lot for you to do and to care for. -Peggy Wilkinson Truman

“ Stan was an excellent and patient teacher. I had the privilege to work with him for 6 years in the cath lab. He was calm and collected during any emergency. He was an outstanding cardiologist and had a natural gift for his work. His patients loved him and he always took time to visit with them. Always happy go lucky, he would sing during his heart cath procedures. His favorite was Dean Martin’s *That’s Amore*. I was blessed to know him.

Amanda Doane - May 25, 2018 at 09:26 PM
